Career Objective

Passionate and detail-oriented Front-End Web Developer with strong skills in HTML, CSS, JavaScript, and Tailwind CSS. Enthusiastic about creating responsive, SEO-optimized, and user-friendly websites. Currently pursuing a degree in Computer Engineering at the University of Lagos (UNILAG) and actively building projects that showcase problem-solving and technical expertise.

Education

University of Lagos (UNILAG) – Lagos, Nigeria

B.Eng. in Computer Engineering (In Progress)
Expected Graduation: Ongoing

Technical Skills

Languages	HTML5, CSS3, JavaScript (ES6+), TypeScript (learning)
Frameworks & Tools	Tailwind CSS, Git/GitHub, Responsive Web Design, SEO Optimization
Other Skills	Problem-solving, teamwork, project deployment, portfolio building

Projects

1. Personal Portfolio Website

• Built with HTML, CSS, JavaScript, and Tailwind CSS.
• Features smooth scroll animations, responsive layout, and downloadable CV.
• Live: Portfolio Website

2. Business Landing Page (Mini Project)

• Designed and developed a modern, SEO-optimized landing page.
• Implemented responsive sections, smooth animations, and clean UI.

Experience

• Built and deployed 2 professional websites on GitHub Pages.
• Collaborated with online developer communities, applying best practices in front-end design and SEO.
• Continuously learning advanced JavaScript and TypeScript to expand web development skills.

Achievements

• Successfully deployed personal projects using GitHub Pages.
• Designed a CV + Portfolio system integrated with web hosting.
• Actively growing professional profile through LinkedIn and GitHub contributions.
